ORDER DIRECTING FILING

Issue Date: October 18, 2016

Effective Date: October 18, 2016

On October 7, 2016, Union Electric Company d/b/a Ameren Missouri (“Ameren Missouri”) filed a revised tariff authorizing a rate structure for a pilot program to install and operate electric vehicle charging stations at locations within Ameren Missouri’s service territory. On October 13, 2016, the Office of the Public Counsel and Consumers Council of Missouri filed motions to reject the tariff, alleging, among other things, that the Commission lacks jurisdiction to approve the proposed tariff because Ameren Missouri’s proposal to install and operate electric vehicle charging stations is not a public utility service. The Commission will provide an opportunity for other parties to respond or comment on the question of the Commission’s jurisdiction. Because of the limited time for the Commission to reach a decision on the tariff, the Commission will shorten the time for parties to respond.

THE COMMISSION ORDERS THAT:

1. Ameren Missouri and the Commission's Staff shall, and any other party may, respond to the jurisdictional arguments of Public Counsel and Consumers Council of Missouri, and also to the questions listed below, no later than October 21, 2016.

- (A) What is the statutory authority under which the Commission may approve the tariff filed by Ameren Missouri in this case?
- (B) Are there any factual questions that must be addressed in determining the Commission's jurisdiction over electric vehicle charging stations?
- (C) Is a certificate of convenience and necessity required for Ameren Missouri to build, install, and operate the electric vehicle charging stations?

2. This order shall be effective when issued.
